

Assignment Two

What the Font!

Description:

We all love music, but when we read the lyrics, the message can be lost. Using everything that we now know about fonts and their styling you will need to style the text to represent the emotion behind the lyrics!

Instructions:

Please read and follow the instructions below:

1. Pick a song that you love and get the lyrics. This will be the content for your webpage.
2. Using HTML structure the content using the appropriate semantic elements.
3. Add enough CSS to make the HTML structure have a pleasant appearance.
4. Use at least **two** different fonts. These can be custom fonts or Google fonts.
5. Style the text content of the site using a variety of different font properties. The idea is to communicate the feeling behind the text.
 - a. Are they yelling?
 - b. Is it sad or happy?
6. All CSS should be in a separate CSS file.
7. Have fun with this!
8. Validate the HTML
9. Upload the files to GitHub (server is optional) and invite me as a collaborator.

Submitting Your Work

Please follow the instructions below to submit your work.

1. Create the assignment repository on GitHub
2. Send out the invite to the repository

3. In the Assignment submission section provide the following:
 - a. A link to the repository
 - b. The URL to the assignment on the server (optional).

* Late submission will be subject to a deduction of 20% per day.

Evaluation:

Task	0 - 1	2 - 3	4 - 5	Mark
HTML Validation	Validation found 5 or more errors	More than 1 but less than 5 errors were found	No errors found	/5
HTML Elements	The elements were not used correctly or contained errors	Most elements were used correctly	HTML was well structured and the elements were used correctly	/5
Page Styling	Little to no CSS was applied to the structure of the page	Some styling was applied to the structure of the page	The page had a professional finish	/5
Font Families	No font families were declared or basic web safe fonts were only used	Only one custom font was used or used incorrectly	Two custom fonts were used.	/5
Font Styling	Little to no styling was applied to the fonts	The fonts had some styling	The fonts were well styled and met the requirements for the assignment	/5
File Organization	Files were not organized	Some organization was found	Files were organized	/5
Total				/30

Acknowledgement:

I understand that plagiarism is the representation of words, code, or ideas of another as one's own in any academic work as outlined in [Georgian College's Academic Policies and Procedures # 8 Academic misconduct](#). I know that plagiarism not only includes verbatim copying, but also the extensive use of another person's ideas without proper

acknowledgement. I know that plagiarism covers this sort of use of material found in textual sources and from the Internet, as well as from other students. I understand and agree to the following policies:

Unless otherwise specified by the instructor, all of my assignment submissions in this course are entirely my own work.

Examples posted online by the instructor from lessons can be used for reference in my assignments but cannot be copied, modified, and submitted back to the instructor as my own work for grades.

I may include code found online in a tutorial, video, book, or developer site provided that:

1. It does not exceed 10% of the work in my submission;
2. I have added the link to the source of this code in my submission;
3. I have received prior written consent by email from the instructor to use this code in my submission. This means I must ask for and receive permission from the instructor before I submit the assignment, not at the time of submission. I must protect my own work by storing it securely on my own computer and private version control repositories. I will not share my code with anyone or make it publicly available or else I face a potential Facilitating Academic Misconduct penalty. The instructor has the right to conduct a Code Review with me for any of my assignment submissions. During a Code Review, I will be asked to explain parts of my submission to validate I understand the work I have submitted. My web camera and microphone must be active for the entire Code Review to ensure I am not receiving assistance from another individual.

I understand Georgian College takes academic integrity very seriously and that an accusation of plagiarism can lead directly to serious consequences, ranging from failing an assignment or a course to expulsion from the program according to Georgian College's 8.1 Academic misconduct process. Any offence in this course will result in a formal Academic Misconduct charge with the Registrar's office and a minimum penalty of a grade of zero on the assignment in question.

I understand these Academic Integrity policies and agree to abide by them on all graded work in this course.
